Licensee _____ Review Period _____

NGC Regulation 6.090(9) requires the CPA to use "criteria established by the chairman" in determining whether a Group I licensee is in compliance with the Minimum Internal Control Standards (MICS). This checklist is to be used by the CPA in determining whether the licensee's card games operations are in compliance with the Card Games MICS.

Date of Inquiry	Person Interviewed	Position

Checklist Completion Notes:

- 1) Unless otherwise instructed, examine a completed document for compliance for those questions referring to records/documentation as indicated and recalculate where appropriate. Indicate (by tickmark) whether the procedures were confirmed via examination/review of documentation, through inquiry of licensee personnel or via observation of procedures. Tickmarks used are to be defined at the bottom of each page.
- 2) All "no" answers require referencing and/or comment, and should be cited as regulation violations, unless the Board Chairman has granted a MICS variation or the question requires a "no" answer for acceptability. All "N/A" answers require referencing and/or comment, as to the reason the MICS is not applicable.
- 3) "(#)" refers to the Minimum Internal Control Standards for Card Games, Version 8.

Minimum Internal Control Standard Notes

- Note 1: For any Board-authorized computer applications, alternate documentation and/or procedures which provide at least the level of control described by these MICS as determined by the Audit Division will be acceptable, and a MICS variation pursuant to Regulation 6.090 will be unnecessary.
- Note 2: The term "shift" as used in these MICS refers to an interval of 8 hours, 24 hours or other division of a 24-hour day. The length of the shift used in the card games area is delineated within the card games section of the written system of internal control pursuant to Regulation 6.090.
- Note 3: These MICS apply to any Board-authorized inter-casino linked system. However, the operator of the inter-casino linked system and the licensee may share the responsibility for compliance, with some procedures performed by the licensee and other procedures performed by the operator of the inter-casino linked system. The procedures which the operator of the inter-casino linked system will perform are to be delineated as such within the card games section of the written system of internal control pursuant to Regulation 6.090.
- Note 4: A "signature" on a document provides evidence of the person's involvement and/or authorization of the intentions reflected in this document. It is typically in the form of a stylized script associated with a person. The stylized script "signature" may include the first letter of the person's first name along with the person's full last name. The "initials" of the person would not meet the requirement of a "signature".

Questions	Yes	No	N/A	Comments, W/P Reference
1. Has the licensee's written system of internal control for card games been read prior to the completion of this checklist to obtain an understanding of the licensee's card games operation?				
<u>Drop and Count Standards</u>				
2. Do the procedures for the collection of card games drop boxes, the count of the contents thereof and the related key controls comply with the MICS applicable to the table games drop? (7) Determine and indicate whether the card games drop, count and key control procedures are the same as those for table games. If differences exist, complete separate checklists to the extent necessary (or note any difference on the table games checklist). Otherwise, indicate references to the applicable table games checklists.				
<u>Card Games Banks/Transfers</u>				
Testing of transfers between the main card room and the casino cage is required, as applicable. Select one card room transfer document per day for 2 days. Test days must be in non-consecutive months. Indicate test dates selected and results of testing.				
3. Are transfers between table banks and the main card room bank (or casino cage, if a main card room bank is not used) authorized by a supervisor and evidenced by the use of lammer buttons? (2) Note: Lammer buttons are not required if the exchange of chips, tokens, and/or currency takes place at the table. Additionally, if table banks are maintained at an imprest level and runners are used for the exchanges at the table, no supervisory authorization is required. (2)				
4. When a card table bank is to be replenished with chips from the main card room bank (or casino cage, if there is no main card room bank), are all cash or chips being transferred verified by the card room dealer and by the runner? (Regulation 23.040) (3) Note: For MICS #2 and #3, a casino cage may function as a main card room bank for compliance purposes within these MICS if a waiver to use a casino cage in lieu of a main card room bank pursuant to Regulation 23.045 has been approved. 5. Are transfers between the main card room bank and the casino cage authorized by a supervisor and documented? (4) Verify by examination.				
6. Is the transfer documentation between the main card room bank and the casino cage retained for at least 24 hours? (5)				
7. Is the rake collected in accordance with the posted rules unless authorized by a supervisor? (6)				
Reconciliation of Banks				
Testing of the card room reconciliation is required, as applicable. Select the card room reconciliations for one shift per day for 2 days. Test days must be in non-consecutive months. Indicate test dates selected and results of testing.				
8. Is the amount of the main card room bank counted, recorded, and reconciled at least once every eight hours? (9) Note: For card games not operated on a daily basis (e.g., card game tables opened for play only during the weekend), the main card room bank may be counted, recorded and reconciled prior to opening card games, every eight hours of card games operation, and immediately after closing card games. During the period the card games are not opened, the main card room bank funds are to be secured from unauthorized access (i.e., key is required to access funds) and maintained in an area requiring surveillance coverage pursuant to Regulation 5.160(6), as applicable to the licensee. (9, Note) If compliance with MICS #9 is achieved as described in this Note, indicate this in the comments column.				
9. For banks that remain on the card tables, at least once every eight hours, are the table banks counted, recorded, and reconciled by a dealer (or other individual if the table is closed) and a supervisor (or an employee independent of the card games department), and attested to by their signatures on the checkout form? (10)				
10. For imprest banks that remain with the dealer, are the banks counted, recorded and reconciled upon issuance and returned by the dealer and a supervisor (or an employee independent of the card games department), and attested to by their signatures on the checkout form? (10)

<u>Computerized Player Tracking Systems</u> Note 1: Compliance with MICS #34 - #39 is only required for playing tracking systems that accumulate points that are subsequently redeemed by the patron for cash, merchandise, etc. They do not apply to player rating systems (i.e., the evaluation of a patron's play and the choice and/or dollar amount of complimentary provided to a patron are solely the result of an employee's judgment). (Note 1 before 34) Note 2: The term "point" or "points" is a generic term and refers to a representative of value awarded to a patron based on specific criterion established by the licensee. Commonly, points are earned by patrons placing wagers or purchasing room, food, beverage or entertainment admissions. Patron accounts in a player tracking system are used to track points earned/awarded to patrons. (Note 2 before 34)				
46. Is the addition/deletion of points to player tracking accounts other than through an automated process related to actual play sufficiently documented (including substantiation of reasons for increases) and are they authorized/performed by supervisory personnel of the player tracking, promotions, or card games departments? (34) Verify by examination.				
47. Is the supervisory authorization described in the preceding question documented and randomly verified by accounting/audit personnel on a quarterly basis? (34)				
Note: The standard mentioned in the previous two questions does not apply to the deletion of points related to inactive or closed accounts through an automated process. (34)				
48. Are employees who redeem points for patrons precluded from having access to inactive or closed accounts without supervisory personnel authorization and is documentation of such access and approval created and maintained? (35)				
49. Is patron identification required when redeeming points without a player tracking card? (36)

51. Are all other changes to the player tracking system appropriately documented? (38)				
52. Are the rules and policies for player tracking accounts including the awarding, redeeming and expiration of points prominently displayed or available for patron review at the licensed location? (39)				
<u>Accounting/Audit Procedures</u> Note: For all accounting/auditing standards, if they are performed less frequently than required and/or the scope of the work is less than required, state the frequency and/or scope of the work that is performed. Additionally, if a MICS noncompliance issue is noted, specify the frequency and/or the scope of the work that is performed (i.e., if they perform a procedure, but not as often as they should, state how often they do it instead of just making a blanket statement that they don't do it monthly, quarterly, etc.).
